EB-5 Visa Program: The Fastest and Easiest Route to a Green Card

- ◆ By investing in the EB-5 investor visa program, you and your children can receive a U.S. Green Card by investment and become a U.S. permanent resident in as little as two years. In comparison, other immigrant visa categories can take from 15 years to a lifetime.
- ◆ You don't have to start a business in the U.S. or hire employees to receive your EB-5 U.S. Green Card by investment. Once your initial EB-5 investor visa petition is approved and you receive your U.S. investor visa for India, you can immediately move to the U.S. and live wherever you want and do whatever you want.
- ◆ An EB-5 U.S. Green Card by investment is also virtually hassle free. All you need to do is provide the required funds, hire an EB-5 immigration attorney to verify the source of these funds and file the required paperwork. You can leave everything else to USettle. It is truly the easiest route to a U.S. Green Card by investment.

Are You Eligible For An EB-5 VISA?

To use the EB5 Green Card route to U.S. permanent residence, you must meet the EB-5 program requirements by having adequate funds:

- ◆ \$900,000 to invest in an approved EB5 regional center project for 5 years.
- ◆ Up to \$80,000 to pay for administrative fees.
- ◆ Up to \$30,000 to pay for legal fees.
- ◆ Documented white money only.

BENEFITS OF A U.S. GREEN CARD

1 All legal permanent residents under the EB-5 Investor Visa Program enjoy the same rights and benefits as every other lawful resident of the United States.

2 The U.S. is a safe harbor for your family as well as for your personal and business assets. Any member of your family with a Green Card can enter the United States at any time and stay as long as he or she wishes.

3 EB-5 visa investors holding U.S. Green Cards by investment have access to the United States for personal, trade and business purposes.

4 Permanent residents travel to the U.S. without the need of a visa.

5 EB-5 visa investors may work, live, or own their own businesses anywhere in the United States.

6 The U.S. has internationally recognized colleges and universities for both undergraduate education and graduate study. As a permanent resident, EB-5 green cards investors can benefit from lower tuition costs associated with U.S. residency.

7 The cost of living in the U.S. is less than most large industrial nations. Consumer goods, services, and housing are significantly less expensive than comparable services and goods in most other countries.

8 Students may work in the U.S. while they attend college and then continue to work afterwards, enabling the student to pay for part of his education and to work while attending graduate and postgraduate studies.

9 The U.S. provides many financial, social and education entitlements – public schools, health and medical attention, social security, and education.

10 The EB-5 visa Investor has the ability to bring other family members to the U.S. after proper application, and can obtain U.S. citizenship by investment after 5 years of residing in the U.S.

11 The permanent residency requires no renewal or re-application. Other U.S. non-immigrant visas, such as E-2 and H may never result in permanent residency, have time limits, and require additional filings with USCIS or the Department of State.

WHAT ARE THE STEPS FOR PROCESSING AN EB-5 VISA APPLICATION?

In order to complete the EB-5 immigration process and receive your U.S. Green Card by investment, investors must go through three steps:

Step 1: USCIS Form I-526 – Immigrant Petition by Alien Entrepreneur

This is your first official step in the EB-5 investor visa U.S.A. process, after completing your Accredited Investor Questionnaire, choosing a Project, signing all of the proper documents to subscribe to an EB-5 Regional Center Project, and placing your funds in escrow with the project.

Step 2: USCIS Form I-485/Consular Review

After receiving approval of the I-526 Application, EB-5 visa investors already residing in the U.S. may submit a completed Application to Register Permanent Residence or Adjust Status (Form I-485) to the USCIS.

Step 3: USCIS Form I-829 – Petition by Entrepreneur to Remove Conditions

With this petition, the EB-5 visa investor must demonstrate that the investment was sustained throughout the two-year conditional period and that job creation requirements were met by the EB-5 Regional Center project. Upon approval of the I-829 application, full permanent resident status is given to the EB-5 green card investor and his or her spouse and any unmarried children under 21 years of age.

HOW USettle HELPS YOU TO AVOID EB-5 RISKS

Immigration Risks

BY EVALUATING JOB CREATION MODELS

We help you to evaluate and select EB-5 projects whose job creation models have already been pre-approved by USCIS, and best meet investor visa USA requirements.

BY EVALUATING TRACK RECORDS

We help you to evaluate and select EB5 regional center developers who have a long and perfect track record of I-526 and I-829 petition approvals for their investors. (For more information on these petitions and the EB-5 Immigration Process, please see my blog on "The EB-5 Immigration Process Explained.")

BY EVALUATING COMPLETION SCHEDULES

We help you to evaluate and select EB-5 regional center projects which are already underway or almost completed, so that the necessary jobs have already been created, as per the EB-5 program requirements.

Investment Risks

BY EVALUATING PAYMENT HISTORIES

We help you to evaluate and select EB-5 regional center project developers with the fastest possible track record of paying back funds.

BY EVALUATING COLLATERAL

We help you to evaluate and select EB-5 regional center projects that will provide you with first lien on collateral, so that you're first in line to collect if the project fails.

BY EVALUATING CAPITAL STRUCTURE

We help you to evaluate and select regional center projects in which EB-5 investor visa U.S.A. funding is a lower percentage of total capital required.

BY EVALUATING PROJECT SALES

We help you to evaluate and select EB-5 regional center projects that are already largely pre-sold.

◆ WHY IS USettle ◆ THE BEST FOR YOU?

WE EVALUATE AND SELECT EB5 REGIONAL CENTER PROJECTS

Whose job creation models have already
been pre-approved by USCIS

Who have a long and perfect track record of
I-526 and I-829 approvals for their investors
